Take Action: Request OKTA Credentials to Ensure Continued Medallia Access for Hotel Employees

Beginning in January, your property will migrate from your existing Medallia platform to the Choice Medallia platform, which is accessed through Okta. To prevent lapses in Medallia access, hotel owners and managers must request Okta access for all hotel employees expected to use Medalla who currently do not have Okta access no later than Thursday, December 21.

Take action now:

- Verify which hotel employees need to access Medallia.
- [Search for your employees](#) to identify who does not currently have Okta access.
- For each user that needs to access Medallia but does not currently have Okta access, please [submit a ticket in ChoiceNOW](#) requesting Okta credentials, providing all relevant user email addresses.

What to expect next:

- Once tickets are submitted, Okta accounts will be created and requestors will receive confirmation.
- Notifications will be sent to all requested emails indicating next steps to finalize Okta credentialing.
- Users should complete all steps as directed prior to **Thursday, December 21**.
- The Medallia tile and access will be automatically provisioned with Okta, but may be hidden until early January when the Medallia portals are integrated.
 - *Note: Okta accounts may be requested after the Thursday, December 21 deadline, however, there may be a delay in when Okta and Medallia credentials are available to those users.*
